We start with your high resolution logo, a generous helping of imagination, and a dash of artistic and technical knowhow to produce your custom chocolate bar molds.

A 50% deposit is required for molds after design approval. The balance due on receipt of your first order.

Allow up to 2 weeks for mold design and fabrication.

Each bar comes wrapped in clear packaging with manufacturer and ingredient information on the back.

Our complimentary, on demand order option allows you to take advantage of volume discount, without having to take the full order all at once. Full payment is required at time of initial batch delivery.

Solid chocolate is shelf stable for over 1 year so long as it does not exceed temperatures above 21-22c, after which point fats may separate and white spots (blooming) appear. No need to refrigerate. Store in a dry area; away from direct sunlight.

Delivery and pickup options are available.
